## **I. NEW BUSINESS**

1. Mr. Reese motioned and Mrs. Locher seconded to accept Mr. Michael Betts as our new Architectural Director and Mr. Bob Lapergola as our new Environmental Director. All Directors motioned and accepted.

2. Ms. Stager has confirmed that some areas of the Reserve Study need to be corrected and rewritten. Upon finalization, the Reserve Study will be available to members around May/June for a small fee. GJB Engineering has agreed that the drainage problems will not have an effect on the parking lots and the parking lots will not take a priority over the drainage. With respect to the Reserve Study to date; this community will have to build a special reserve fund to approximately \$30,000-\$50,000 per year to contribute to the parking lot fund, which could be completed in 10 years depending on increase in costs. Our drainage will cost around \$30,000. The Board of Directors will schedule a meeting with GJB Engineering in June 2008, if feasible.

3. The final Architectural Guidelines includes new uniform codes by the State of Virginia and will be completed for distribution to homeowners during summer 2008.

4. The Board of Directors has agreed that two amendments will be issued for vote at the 2008 Annual Meeting including the Architectural Guidelines to reflect new information and eliminate the CPI index since it does not relate to actual contract costs. Sixty percent of homeowners need to approve these changes. If it is not approved, additional special assessments will go into effect.

5. Encroachments from three homes at Old Keene Mill Estates are still under investigation.

6. A special meeting will be held for the Engineering Study. Homeowners will be informed as to date and time upon the decision of GJB Engineering.
